MEMORANDUM FOR: THE RECORD

SUBJECT : Meeting at [redacted]

25X1

1. Time and Place of Meeting: 9 February 1956 at [redacted]

25X1

25X1

25X1

2. Attendance: [redacted]3. Purpose: To discuss the design and fabrication of two additional collapsing lens units [redacted]

25X1

25X1

4. Discussion:

a. Collapsing Lens Barrels - Ad Hoc #38 - A set of the attached specifications were hand carried to [redacted] and discussed. Certain of the proposed modifications will be difficult to incorporate; however, [redacted] will give consideration to the proposed systems and submit a proposal. A cost breakdown will be forth coming. [redacted] requested that they be informed the type of markings desired on the lens to indicate the lock and unlock directions of rotation of the barrel sections to collapse the lens. Note: In discussing this problem with Chief, TSS/PD, it was determined that the marking "0" should indicate the direction of rotation to unlock the lens and "L" to indicate the direction to lock the lens. This information will be relayed on to [redacted]
